# CERTIFICATION

SPECIFIC PRODUCT IN THIS PRICEBOOK COMES WITH SOME OF THESE CERTIFICATIONS, OR CAN BE MANUFACTURED TO QUALIFY.

## Supply Nation

Supply Nation's world-leading 5-step verification process provides peace of mind by ensuring that all businesses listed on Australia's largest national directory of Aboriginal and Torres Strait Islander businesses. "Certified" means a current approved Indigenous business and certified supplier of Supply Nation meeting certification criteria.

---

## Warranty

DE Warranty promises the original purchaser that it will repair or replace with comparable product, at its option and free of charge (for material and components), any product, part or component which fails under normal use over the duration of the specified warranty term (taken from the date of purchase). Normal commercial usage is defined as the equivalent of a single shift, 40 hour work-week.

---

## ISO 14001

ISO 14001 Certification is the international standard that specifies requirements for an effective Environmental Management System (EMS). It provides a framework that DE as an organization can follow. At DE we are using this framework as an approach to continuous improvement across all environmental aspects of our business.

---

## ISO 9001

ISO 9001 Certification is the world's most widely recognized Quality Management System (QMS). At DE its our guiding principle to meet the expectations and needs of our customers through quality management systems that continually monitor and manage quality across all operations to deliver consistent performance and service.

---

## AS/NZS 4801

AS/NZS 4801 is the benchmark to assess Occupational Health & Safety Management systems for organisations. This standard contains vital information about meeting legal requirements and invaluable guidance on how to establish sustained improvement in health and safety performance in your business.

---

## GECA

GECA (The Good Environmental Choice Australia) Ecolabelling Program, operates a national third-party, independently verified ecolabel, in conformance with Environmental labels and declarations (ISO 14024), that can be applied to a wide range of products and services. This certification gives you an independent, reliable and convenient way to select DE products and services that are certified by GECA to deliver better environmental outcomes.

---

## AFRDI

AFRDI Certification is a set of standards covering strength, durability, stability and safety (and ergonomics in the case of desks and workstations). This means that DE are accountable for maintaining the quality of our products, submitting them for regular auditing to ensure they meet the highest standards for commercial use.

---

## BIFMA

BIFMA Certification focuses on safety and performance standards developed by the BIFMA Engineering Committee. The standards provide manufacturers, specifiers, and users with a common basis for evaluating safety, durability, and the structural adequacy of the specified furniture, independent of construction materials. The standards define specific tests, laboratory equipment to be used, the conditions of test, and the minimum acceptance levels to be used in evaluating these products.

---

## FSC

FSC is the leading catalyst and defining force for improved forest management and market transformation, shifting the global forest trend toward sustainable use, conservation, restoration, and respect for all.

---

## AUSTRALIAN TRUSTED TRADER

Australian Trusted Trader Certification is a standard that rewards companies showing compliant behaviour, secure supply chain with strong security practices, to enjoy a wide range of trade facilitation benefits. DE have held this status since 2017.

---

## GREENGUARD

A GREENGUARD Certification ensures that a product has met some of the world's most rigorous and comprehensive standards for low emissions of volatile organic compounds (VOCs) into indoor air. GREENGUARD Gold Certification offers certification criteria that considers safety factors to account for sensitive individuals (such as children and the elderly), and ensures that a product is acceptable for use in environments such as schools and healthcare facilities.

# WHO ARE DIRECT ERGONOMICS?

---

DIRECT ERGONOMICS IS AN INDIGENOUS BUSINESS ESTABLISHED 1986, MANUFACTURING AND SUPPLYING COMMERCIAL AND ERGONOMIC OFFICE FURNITURE TO GOVERNMENT AND CORPORATE ORGANISATIONS.

WE HAVE AN EXTENSIVE RANGE OF SIT-TO-STAND AND STATIC WORKSTATIONS, PORTABLE SIT-TO-STAND DESK UNITS, A LONG LIST OF ERGONOMIC TASK, EXECUTIVE AND VISITOR SEATING, AND CREATIVE COLLABORATIVE SEATING. ULTIMATELY THIS MAKES DIRECT ERGONOMICS A ONE-STOP SHOP FOR YOUR OFFICE FIT-OUTS AND ACTIVE WORKSPACE CREATION.

WE ARE ABLE TO SUPPLY UNDER SEVERAL GOVERNMENT CONTRACTS INCLUDING DEPARTMENT OF DEFENCE, NSW STATE GOVERNMENT OFFICE FURNITURE CONTRACT 771.

DIRECT ERGONOMICS IS A TEIR ONE SUPPLIER TO THE NSW STATE GOVERNMENT CONTRACT 771 FOR ALL CATEGORIES UNDER THE OFFICE FURNITURE SECTION (PRETTY MUCH OUR ENTIRE RANGE IS AVAILABLE UNDER THIS NEW CONTRACT)

# WHY CHOOSE DIRECT ERGONOMICS?

We are the first chosen for schoolyard footy, we are the class valedictorian and homecoming queen, we have the experience and the knowledge to get you the best product and service on the market, and we'll do it cheaper too! Need another reason? Here's three.

## 01

We LOVE Australian-made products. The majority of our furniture is made in Australia. We also have our ISO9001 certification for Standards in Quality Assurance, and AFRDI Certification on our range of ergonomic seating, visitor and executive seating, and workstations. So you can rest easy knowing that you're getting the best quality product we can find.

## 02

We have our ISO14001 certification for Standards in Environmental Management, and over half of our range is GECA certified! We were one of the first in our industry to use water-based non-toxic glues, and we offer recycling options to all our customers, ensuring maximum points on the Green Building Council Matrix.

## 03

We are a small, Indigenous, family owned business. Whenever possible, we aim to support other Indigenous and Regional businesses throughout our entire production process.

## Australian-Made First.

It's not always possible, but when we can, we will always give preference to locally produced, Australian-made furniture, from Australian-owned factories and companies.

We believe in strengthening the local economy by using local installers and manufacturers, and using small businesses wherever possible.

## Coast-to-Coast Delivery and Installation.

No matter where in Australia you're based, we'll deliver to you. Our network of installers cover the entire continent, ensuring there'll always be someone there to make sure your space is set up exactly how you want it.

We'll also take all our rubbish with us, so you can relax in your new, clean office.

## Supporting Local Communities

We are proud of our Indigenous Heritage, and want to give back to disadvantaged communities in the Moree region, where our Gamilaraay / Kamilaroi forbears lived for generations pre-colonisation.

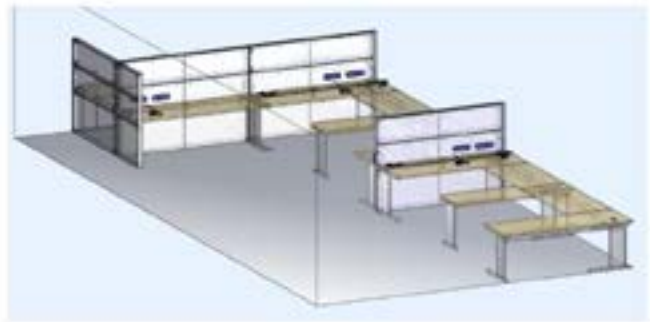

We give preference to installation and manufacturing companies owned and run by Indigenous-Australians, and a portion of our profits from selected products are given to programs assisting Indigenous communities in rural NSW.

# Our Services

## Project Planning and Design.

Need a hand? Direct Ergonomics offers space and project planning to help design your new office area. We'll help measure your space and make sure there's enough room and equipment for everyone to work comfortably and within compliance standards.

We'll incorporate your advice on filing and storage, WH&S and individual requirements to ensure that the end result is a fully functioning area that adds to the wellbeing of the organisation - for a better working environment. We can assist with your product specifications, produce prospectus and shop drawings, and consult on style and colour.

## Stand Out from the Crowd.

Can't find what you had in mind? Need items of a specific size, colour, finish, or fabric? Our wide range of suppliers, in addition to in-house production, means there's no design that can't be manufactured. Let us know how we can help you create the space you need. We'll source the best materials from our reliable suppliers, so you get exactly what you want at the best possible price.

## Need it Quick?

Some items are available for quick ship, which means they are generally held in stock, and able to ship straight away.

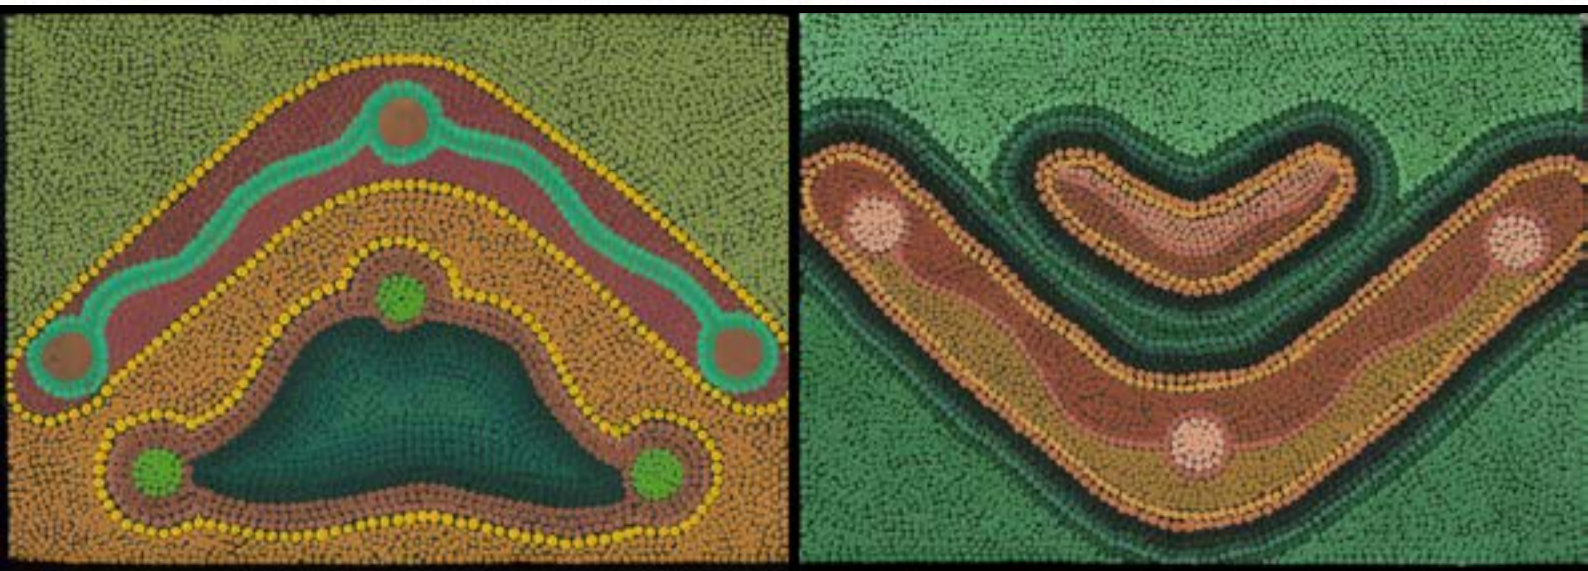

## Not a Hoarder?

We know you'll love your new products, but how will you get rid of the old ones? Let us take care of that with our recycle service. When we deliver your shiny new furniture, we can take the old stuff with us, so you can come back to a clean, junk-free office.

\*Recycle service pricing depends on location and availability,

Artwork by David (Crockett) Cragie, mentor and artist for Moree TAFE. Tour guide and advisor for the Mehi Gallery and Studio. David is a Kamilaroi Man and Moree Local.

## Direct Ergonomics' Indigenous Heritage and Commitment

Direct Ergonomics is a family owned company, owned and run by Donna McMullen. Direct Ergonomics was started back in 1986 by the McMullen Family - Alan and Brett. Donna became heavily involved within the first 3 months of its operation and has been hands on ever since.

14 years ago, it became known that the McMullen Family has Indigenous Heritage. This heritage was stolen from us and the secret died with the passing of Donna's Grandmother, Dorothy McMullen (nee Taylor). Alans' Great Great Grandmother was a Gamilaraay/Kamilaroi woman named Mary Madden. This ancestry was clouded by Alans' Grandmother and her family, being brought to light over the last two decades of diligent peeling back of the layers of concealment. We are enjoying meeting relatives we never knew we had and enjoying being part of our Mob in Moree.

Today, Donna and Direct Ergonomics embrace this heritage. We aim to maintain diversity in our staffing across the entire company and endeavour to work with Indigenous suppliers and customers at every opportunity, including installation and delivery teams all over Australia.

We run several Indigenous Programs in an effort to 'give back' to our community.

**Program One:** Indigenous Cadetship Program that is aimed at helping Indigenous youth become job ready. It is a paid position running 8-12 weeks that aims to prepare the cadets with a solid work ethic and exposure to an office environment. Mentoring, assisting in resume preparation, and career guidance are all part of the program.

**Program Two:** Our Stand UP Program ensures \$10 of the purchase price of all the products in the StandUP Range goes to Youth Programs in Rural Australia. We have raised over \$20,000 and with your help we are aiming to double it.

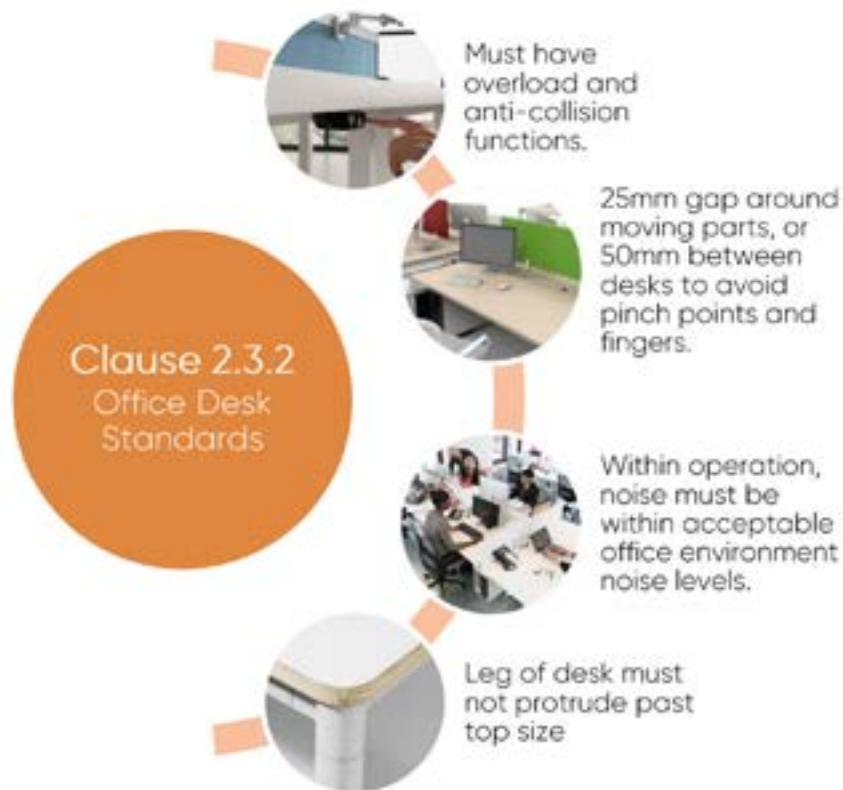

**Program Three:** Boots N All is a new Program aimed at school children and getting them onboard to help out their fellow sportsmen in the bush. We rally around to get 'slightly used' boots and shoes and then send them on to Indigenous Communities that don't have access to new boots every season.

# Summary of — Australian Standards

## Summary of Australian Standards 4442: 2018

Quick reference guide to new Aust Standards for Office Desks and Workstations.

### Clause 2.3.2 – Office Desk Standards – Sit to Stand Workstations

### Global GreenTagCert™ Certified Products

Just like you, we care deeply about Australia's natural environment, and we strongly believe in the importance of supporting sustainable building practices, creating an extensive range of environmentally-preferred products and reducing our overall environmental impact. For this reason, we put 'Green First' and employ a range of processes, along with the latest technology to ensure we reduce our carbon footprint. But how are we actually doing this? Here are just a few examples

#### Timber Certifications

As a large manufacturer of wood products, we respect and support responsible forest management and are committed to producing quality products that are backed by globally recognised certifications.

### Global GreenTagCert™ Certified Products

Laminex Australia is proud to offer a leading range of Global GreenTagCert™ independently certified products. This certification represents the benchmark for sustainability credentials, being a globally respected environmental certification system.

### Low Emission Products

Laminex Australia recognises the benefits low emission products present in sustainable building projects. All of our Australian made Medium Density Fibreboard (MDF), has extremely low formaldehyde E0 rating.

### ISO 14001 Certification

Laminex Australia also maintains ISO 14001 Environmental Management System certification for all manufacturing sites and is progressively embarking on a number of waste and emission reduction initiatives to reduce our overall environmental impact.

### Green Building Council Membership

Laminex Australia is member of the Green Building Council of Australia, with GBCA accredited professionals.

# Standard Dispatch Times

## Express Items - usual transit time

- Dispatch next day if ordered before 11.00am

## Standard product - usual transit time

- Small to large order dispatch 7-37 days from order

 3 Working days from dispatch of order

 3-5 Working days from dispatch of order

 7-21 Working days from dispatch of order

# RECEIVING DELIVERIES

## CHECK

- Thoroughly check all deliveries to confirm it has arrived undamaged.
- If there is signs of damage you can still receive the freight, but you must note the damage on the consignment note.
- Although drivers are keen to deliver the freight and depart, you have every right to ask them to wait. Drivers can be asked to wait up to 20 minutes until the receiver has completely checked the consignment.

## ENDORSE

- If an item is damaged, note the damage (endorse) on the consignment note BEFORE before signing it.
- If the packaging is damaged and you are unsure whether the item is damaged or not, endorse the consignment note as 'damaged packaging': This will help with claim should the item be damaged.

- If any items are missing, note this on the consignment note with the correct quantity before signing it.
- DE, understands larger orders can be difficult to check thoroughly at time of delivery. For orders over \$10,000 we will allow 24 hours from time of delivery for you to check the goods and inform us of anything untoward.

## ADVISE

- If your order has arrived damaged, or been short-shipped, please contact the DE Customer Care team immediately.
- Provided the consignment/Job Number note is endorsed, DE will arrange replacement parts to be dispatched expeditiously, usually within 24 hours.
- If the consignment note/ Job Number is not endorsed, DE will supply the required replacement parts at your cost, and will ensure these are dispatched ASAP, usually within 24 hours.

# RETURNS

- See <https://www.directergo.com.au/terms-and-conditions/> for Returns Policy

# PRICING

- Standard Item Pricing featured in Catalogue excludes Delivery Costing & Installation Pricing. Be sure to ask our sales team for your special pricing structure. Discounts usually apply.
- Residential Address will incur a surcharge
- All prices exclude GST.

**This price guide was updated March 23rd**

We reserve the right to update or change the pricing in this price guide at any time.

**Please note: Most product shown in this Price Guide requires onsite assembly.**

# Channels to Market

## Standard In-Stock

**"An in stock solution for every space in today's workspaces."**

### Key Advantages

- Next day dispatch
- All product made from computer controlled cutting programs to ensure perfect future product matching
- Australia wide delivery network
- Available online

## Custom In-Stock

**"A customisable offering that utilises proven, pre-engineered components and the latest design trends."**

### Key Advantages

- Fast turnaround for colour-only changes
- Can combine with install and extra services
- Leverage's off deep stock holding
- Australia wide delivery

## Bulk Buying

**"A product selection for anyone looking to utilise bulk buying to maximise profits."**

### Key Advantages

- Best price offering
- Colour/size customisable
- Backup matching stock from in-stock programmes
- Delivery windows from 8-10 weeks
- Low volume order possibilities
- Direct to site delivery programme

## Tailored Design

**"A bespoke product design/engineering/supply/deliver service that brings cost effective furniture deliverables for the hospitality, education, office and government institution sectors"**

### Key Advantages

- 40 years importing experience
- Best price for bulk made to order projects
- Colour/size customisable
- Unprecedented mixture of available materials that can be combined on the same projects, while utilising trusted, pre-proven manufacturing facilities
- ISO 9001, ISO 14001 & GECA factories
- Experienced team with delivery experience across 40 year's

## WORKZONE CARGO

Fixed Height Desk (720mmH)

Workzone Cargo T-legs are stylish and strong. The T-leg design enables maximum legroom especially when they are used in a linear-style layout.

Workstations are manufactured in Sydney and GECA certified. We can customise the Cargo design to suit most applications.

Workzone Cargo fixed height collection is popular for offices looking to complement their height adjustable systems with low cost benching. Fully interchangeable with the Workzone Height adjustable Range systems to enable matching aesthetics across the office.

If you are looking for freestanding or screen-based, the Cargo option will accommodate your needs.

## NUBLOC SINGLE

Fixed Height Desk (715mmH)

The NuBloc leg features a timeless classic square leg that will fit into any office or waiting room space. Highly versatile, this simple desk is available in a wide range of shapes, sizes, and height options, so you will always find one that suits your space.

The NuBloc is constructed with fully recyclable aluminium which can be finished with GECA approved EO Worksurfaces to help your clients receive maximum points towards Green Star building accreditation.

Features of the NuBloc:

- Recyclable Components – Ask us about our Stewardship Programme
- Linear Single Configurations are possible by repeating leg frames
- Linear Double or Back to Back Workstation configurations are possible
- Conference Table Configurations are possible with these Leg frames
- Multi Leg Conference Tables are possible by repeating Leg frames
- Corner Workstation configurations are possible
- Standard Finish is White Frame with choice of Laminate Top

# ERGONOMIC Accessories

---

The typical full-time employee spends about a third of their time at work. Why would you settle for spending a third of your life uncomfortable?

Direct Ergonomics offers a wide range of accessories to help improve your daily work experience. Standing up at work is not the only way to reduce discomfort, the use of monitor arms and antifatigue mats can also help alleviate pressure on your back and neck.

# SIT TO STAND CONVERTERS

Sit to Stand workstations help break up long periods of inactivity and sitting by raising your desk or computer to standing height, allowing you the freedom to move around without interrupting your work.

The sit-to-stand workstations fall into two main categories - sit to stand Desks, and desktop sit-to-stand portable workstations. Portable sit-to-stand workstations are a great way to experience the benefits of a sit-to-stand desk without the high cost of a new desk.

The benefits of each are outlined below:

| <b>Sit to Stand Desks</b>                                                                             | <b>Portable Sit to Stand Workstations</b>                                                                             |
|-------------------------------------------------------------------------------------------------------|-----------------------------------------------------------------------------------------------------------------------|
| No need to re-arrange your desk or move items to a new workstation, the entire desk moves up and down | Relocating office? Portable sit to stand options are easy to set up and perfect for moving around.                    |
| Larger desk space, more room for all your belongings and documents                                    | More affordable! And ask us about trial options for your office.                                                      |
| Larger carrying capacity - never worry about weight capacity.                                         | You don't have to give up your existing desk, portable options will sit atop of any existing desk (of correct depth). |

The main benefit of a portable workstation is that you are able to convert any existing workstation into a sit-to-stand workstation. This is particularly useful for shared office spaces or dynamic workplaces where staff change roles or offices regularly.

Choosing a portable workstation can also save hundreds of dollars per unit compared to a sit-to-stand desk, making it an affordable option for small batch orders.

**Our Sit-to-Stand desks can be found in the Workstations section on pages 17-21.**

## AERO 50MM SYSTEM

Reconfigurable In Future

The Aero 50mm screen is a versatile, quality workstation screen system, made to order in Australia. Made with Eo board which has zero emissions, the screen design provides a lower environmental impact through the manufacturing process. Designed in Australia, this workstation system offers both ducted and non-ducted panels for ultimate flexibility.

Aero is an investment that can be reconfigured to adapt to a growing office, simply by adding or subtracting panels.

- No Duct Panel, Non Pinnable standard
- Australian Made
- Use with any Desk System
- Choice of White, Silver or Black Powdercoat Finish
- Extended size and colour range options

### OPTIONAL EXTRA'S:

- Mid Panel Ducting
- Base Ducting
- Services Can Be Added (P.O.A)
- Mounting Hardware for any Setup

Screens for workstations give privacy to the workstation and can assist with dampening or reducing office noise. We offer a great range of screens and can customize to suit your office layout.

Please note: all prices are based on house fabric unless otherwise stated. See Page 13 for Range Of colours

## ECHO SCREEN SYSTEM

Weight Rating 160 Kg

Our new Workzone Echo Screen Panels are designed with the environment and noise reduction in mind. The highly-functional Echo acoustic panels are ideal for open-planned spaces from commercial offices to educational facilities providing sound absorption and reducing noise.

The contemporary panels offer a standard of ease, flexibility and customisation.

Tested for fire retardancy to comply with Australian building regulations, Echo Panel Noise Reduction Coefficient (NRC) is 0.85"

## BLADE SCREEN

Fabric Wrapped Panel

Workzone Blade Room dividers are designed to divide larger areas into quieter, more functional spaces, providing an easy and cost-effective way to minimize the noise and visual distractions found in today's open work environment.

Constructed from 100% recycled PET materials, Blade dividers absorb up to 85% of ambient noise and easily zip together to create an innovative acoustic solution that allows workers to be more focused and productive while maintaining the benefits of collaboration.

## Plexa Screen System

6mm Thick System

Sneeze guards, cashier protectors, acrylic barriers, biohazard shields, personal protection shields and cough screens, by any name, they help protect your customers, clients, patients and staff by providing sanitary barriers that reinforce social distancing.

Plexa features 5mm thick clear acrylic panels. Optional side panels attach to the main panel at right angles and provide added protection. Panels slide into place using interlocking tabs. The front panel has a bottom gap to allow for paper transfer.

Plexa Freestanding sits on the countertop, no installation necessary. Fully customizable with options for sizing. Ships ready to assemble.

## PLEXA ROOM DIVIDER

Combine Straight & Curve For endless Setup

Create stylish privacy in seconds with the new modular screen system. Made from a light bronze tinted ribbed polycarbonate, filtered light is able to past through to brighten work areas but still provides functional privacy.

Join as many straight and curved panels together to create flexible work spaces. These screens allow you to create not only straight and L shape partition but also unique wave, curved and even circular walls and room dividers.

Strong magnets are incorporated into the frame which securely hold panels together without the need for any screws and totally eliminating any gaps.

### DESCRIPTION

- Clear Straight - 1800H x 800W
- Clear Curved - 1800H x 800W
- Clear Straight - 1600H x 800W
- Clear Curved - 1600H x 800W
- Mobile - Clear - 1800H x 1200W

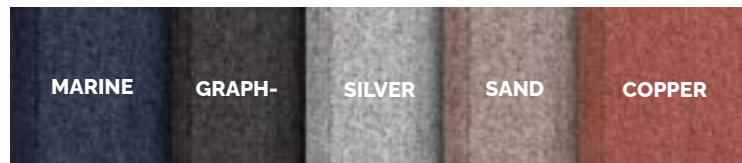

## BLADE ROOM DIVIDER

| 1 side whiteboard, 1 side Charcoal fabric |
| 2 side whiteboard                         |
| Connector Kit                             |

## MODO PINBOARD

100% Recycled Materials,  
Absorb 85% Ambient Noise

The Modos Vertiface Freestanding Pinboard is a versatile and practical solution for your school or office, with a commercial-quality double-sided pinnable surface mounted on an easily movable frame.

The board is 100% recyclable due to the non-woven velour fabric surface, which is easily pinnable and accepts Velcro – making it ideal for learning environments.

The powder-coated steel frame provides excellent stability due to the T-style legs, with the high quality castor wheels allowing you to easily move the board from room to room.

40 surface colours are available for you to find the perfect pinboard for your space!

## WALL MOUNTED PINBOARD

100% Recycled Materials,

The Wall Mounted Vertiface Frameless Pinboard features a non-woven velour fabric surface fully wrapped around the board to provide a stylish and modern look for your office or classroom.

The board is 100% recyclable, with the surface that is easily pinnable and accepts Velcro – making it ideal for learning environments.

The unique mounting design makes it easy to install the board in portrait or landscape, while stainless steel barrel fixings add to the aesthetic appeal.

40 colours and a range of sizes, including custom, are available so you can create the perfect pinboard to suit your space.

## PEEL'N'STICK TILES

100% Recycled Materials,

Peel 'n' Stick Tiles reduce echo and easily transform walls into acoustic notice boards because of the commercial adhesive backing. The Peel 'n' Stick tiles come in a range of colours, allowing you to mix and match to create designs.

The tiles are 600mm x 600mm that are easily cut to size for a variety of design combinations because of their thin size. The tiles are easy to clean – a light vacuuming on a regular basis will prevent dust build-up and most marks are cleaned with a mild detergent solution followed by rinsing and blotting.

## EZONE CHAIR

Weight Rating 160 Kg

Illustrated: Ezone High Back w/510mm Seats

The Ezone Family is AFRDI Lvl 6 certified. The fully ergonomic mechanism allows back and seat tilt adjustment, and back and seat height adjustment (460-590mm), all adjusted individually from the seated position. The depth of the seat can be increased or decreased by adding a seat slide to the chair.

The Ezone comes standard with a 510mm wide seat, suitable for most people, with options for and 480mm Petite Seat & 530mm Wideboy Seat.

Ezone seats come standard with dual density foam, firmer in the front and softer at the back to encourage good posture and reduce pressure on the lower back.

### OPTIONAL EXTRA'S:

- Medium Back (425-495mm High)
- High Back (515-585mm High)
- Mesh High Back (534mm High)
- 480mm Wide Seat
- 510mm Wide Seat
- 530mm Wide Seat
- Height adjustable arms
- Seat slide
- **Drafting Height w/ Footring (740-980mm H)**
- Heavy Duty Kit (Chrome Base, Reinforced Seat/mechanism to allow 160kg Weight rating)

Please note: all prices are based on house Black fabric unless otherwise stated.
